Subject: Software Developers vacancy

Dear Sophie Klein,

My name is Rick and I am writing you regarding this vacancy that I came across your website. I am freshly graduated from the Codaisseur Code Academy, where I learned how to make full stack applications. Now I am very excited to join your team to broaden my experience as a developer, and meet like-minded colleagues. My open mindset, creative background combined with my interest in culture encouraged me to apply for this position. Also my social skills, working in teams, my pleasure of helping people as well are important values I can apply to this job.

My passion for plants led me to start organizing cuttings swapping events. It is an event to swap plant cuttings, meet like-minded people, share and exchange ideas. It is organized every month in different locations in The Hague, The Netherlands. The web application that I am currently making for it, will be open source because it shares the same value. Users will be able to attend events, swap cuttings, share ideas and meet up.

I have included my Curriculum Vitae so you can learn more about my educational background and my experiences. Thank you for your time and consideration.

Please feel free to email me or call my cell phone at +31 648700448.

I look forward to hearing from you.

With kind regards,

Rick Hekman
