PROFILE

After working for more than 4 years solving Business challenges, now I completed accelerated boot-camp to switch career to align with my enthusiasm for technology. Now, my focus is to use that knowledge in making useful and high quality applications that help solve problems. I am looking for a role as web developer for a company that provides a mix of challenge and opportunity. I am a conceptual thinker with ability to break down a complex problem

WORK EXPERIENCE

Codaisseur - Full stack Developer Trainee
